WELCOME TO UBON RATCHATHANI UNIVERSITY
UBU WHERE YOU CAN BE YOU
WELCOME TO UBU

Welcome to Ubon Ratchathani University (UBU) and international education!

This booklet outlines information about UBU for prospective Thai and non-Thai students who are thinking of applying for the international education undergraduate and postgraduate programs available at UBU (other programs are available in Thai).

INTERNATIONAL EDUCATION COURSES

Undergraduate

There are two degree programs offered as part of International Education at UBU. These include Bachelor of Arts degrees in English and Communication in the Faculty of Liberal Arts (see page 31 for full details) and in International Business Management in the Faculty of Management Science (see page 37). Other degree programs are offered as partial English programs and Thai programs.

Postgraduate

Many postgraduate programs are conducted in English. These include programs in the Faculty of Science, Faculty of Pharmaceutical Sciences, Faculty of Agriculture, Faculty of Engineering, and the Faculty of Liberal Arts.

PRESIDENT’S MESSAGE

It is my pleasure to welcome you to Ubon Ratchathani University (UBU).

Since its foundation in 1990, UBU has rapidly grown. Throughout this time, the university has striven for academic excellence to help promote sustainable growth of the country and the region, especially the southern part of Isan (North-East Thailand), a region rich in culture, history, and potential development.

UBU offers an extensive range of undergraduate and postgraduate programs in the three discipline areas of Arts, Humanities, and Social Sciences (Faculties of Law, Liberal Arts, Management Science, and Political Science), Health Sciences (Faculties of Nursing and Pharmaceutical Sciences, and the College of Medicine and Public Health), and Science and Technology (Faculties of Agriculture, Applied Arts and Architecture, Engineering, and Science). It also has a campus at Mukdahan on the Thai-Lao border. These programs take place in a blend of pleasant surroundings and modern technology in a safe environment conducive to learning and living.

UBU has links to various overseas institutions via research, collaborative projects, and exchange programs. It plays a significant role in the development of the Greater Mekong Sub-region and aims to become a leading teaching and learning institution in this region and in ASEAN.

On behalf of the staff and students of UBU, I welcome you to our university.

Associate Professor Nongnit Teerawatanasuk PHD

UBU’s vision is to be a leading teaching and learning university in the Greater Mekong Sub-region, producing graduates of high quality, and creating knowledge and innovations for a sustainable society.

Background

“Information about UBU” in other languages is available on our website: http://www.ubu.ac.th/en.

UBU was founded in 1987 as a regional campus of Khon Kaen University. It was established as a university by Royal Charter in 1990, and initially aimed to provide educational opportunities for the people of Isan, servicing specifically the provinces of Amnat Charoen, Mukdahan, Nakhon Phanom, Sakon Nakhon, Si Sa Ket, Ubon Ratchathani, and Yasothon. It now caters for students from throughout the country. UBU supports and encourages research that benefits local, national, and international communities, and promotes activities that preserve the cultural identity of the area.

The university is located on the Warin-Defudom Road, approximately 15 kilometers south of Ubon. It is easily accessible by public transport from the airport and the numerous bus terminals in Ubon, as well as from the train station in Warin. The campus is spacious and is situated in a rural setting, occupying approximately 5,300 rai (848 hectares).

The university’s logo is in the form of a Lan Chang period chedi, a religious structure common in Isan. The chedi contains a lotus blossom resting upon a three-tiered pedestal representing the main rivers of the province, the Mekong, the Chi, and the Moon. The two bottom petals of the blossom represent the qualities of morality and intellectuality that the university strives to develop in its students. The three top petals represent the “Triple Gem” of Buddhism, a recognized pathway to happiness. The pink of the lotus is the official color of the province, and the blue outline of the logo represents the strength and stability of the university. The yellow background is the official color of the university.

The symbolic tree of the university is the Kan-Krao, a fragrant yellow flowering tree that grows prolifically on campus. Kan-Krao can grow even in infertile soil. Its timber is very hard and can withstand termites, so it is excellent in the construction of houses and furniture. The tree represents the strength and unity of our university community working towards the future.

Mission

To produce capable, ethical, and self-sufficient graduates of an international standard
To conduct research and encourage innovations beneficial to the community
To serve people in the local community, especially the southern part of the Isan and the Greater Mekong Sub-region
To conserve and promote local and regional arts and culture.
WHY CHOOSE UBU FOR INTERNATIONAL EDUCATION?

There are a number of reasons why UBU should be considered for international education:

1. UBU is a leading regional university in Thailand
2. UBU has a highly-qualified staff (total number of lecturers 686, PhD 53% and master 47%)
3. UBU is a relatively young university (founded in 1990) so its facilities are modern and its teaching and research initiatives are fresh and forward-thinking
4. UBU has a range of faculties that cover most academic disciplines
5. UBU has specialties in a number of academic disciplines, such as agriculture (fisheries and rice research), tourism in the Greater Mekong Sub-region, rubber science, and pharmaceutical chemistry and natural products
6. UBU is located about 15 kilometers from the major city of Ubon Ratchathani, a leading center for business, education, government, retail, transport, medicine, and finance in South Isan
7. UBU is located within easy reach of Ubon International Airport, Ubon Railway Station, and Ubon Bus Station providing daily services to Bangkok and other major cities in the country
8. UBU is located approximately 80 kilometers from a land border entry to Lao PDR at Chong Mek and about 100 kilometers from a border crossing into Cambodia at ChongSa Ngham
9. UBU enjoys a rural setting in a quiet and well-maintained environment
10. UBU has apartments for undergraduate and postgraduate students’ use and there are many accommodation alternatives off-campus at reasonable prices
11. UBU is located in a traditional part of the country in which agriculture is the main employment of many of the locals and prices are not inflated and/or affected by tourists.

SEMESTERS
UBU operates on a two-semester program. Semester 1 is from the beginning of August to the end of November and Semester 2 is from January to June. A summer semester from June to July is also offered in some selected courses presented in intensive mode.

HOW TO APPLY

STEP ONE – CHOOSE YOUR PROGRAM
There are more than 60 undergraduate and graduate programs at UBU. Choose one program that you are interested in applying for.

STEP TWO – SUBMIT AN APPLICATION FORM
Check the admission information and complete the online application form. Paper applications are also accepted – these can be downloaded from the UBU website: www.ubu.ac.th.

STEP THREE – SELECTION PROCESS
The university will review your application. There are 3 main areas that are considered – standardized language (English or Thai) test results, your attitude and performance, and health. In addition, work experience for graduate level candidates may be requested. Some programs will accept applications directly as they set their own specific rules and requirements for admission according to their programs. This process may take up to 3 weeks to review the information that you provide.

STEP FOUR – WAITING FOR AN ANNOUNCEMENT/RESPONSE
Email confirmation will be sent approximately 2 weeks after your application is received. You will be notified if other documents are required. Email confirmation will be followed by an official letter and the necessary visa supporting documents after you pay a student confirmation fee.

STEP FIVE – APPLYING FOR A STUDENT VISA
You can apply for your student visa at a Royal Thai Embassy or consulate in your country. You must include the official letter of acceptance mentioned in Step Four above, a photocopy of your passport (which must be valid for at least the next 6 months), recent passport-size photographs, and other required documents. The embassy or consulate should grant you a non-immigrant education class or Non-ED (type of visa for study). For more details about visa application, please visit www.mfa.go.th. You may contact UBU International Relations Office at intercoop@ubu.ac.th

STEP SIX – ARRANGING ACCOMMODATION
The university strongly suggests that you stay in UBU Dormitory (on-campus) or our network accommodation (off-campus) for your convenience. You need to make a reservation before arrival.

STEP SEVEN – ON ARRIVAL
On arrival, you should go to the Office of International Relations (IR) on the 3rd floor of the Office of the President. Alternatively, the university can provide an airport pick-up upon request. IR staff will assist you to settle in and with other matters, such as currency exchange, opening a bank account, orientation program, and where you should go for your enrollment session. All international students are expected to participate in the university’s orientation program which usually occurs at least two weeks before classes begin. This program is specifically designed for newly-arrived international students and includes general information about enrollment, visa management, campus facilities, public transport, shopping, recreational activities, and social functions.

STEP EIGHT – ENROLLMENT
According to the university’s rules, all new students have to enroll to confirm that they will study at UBU. This procedure is administered by the Registrar’s Office. You can get more information on orientation day.

INFORMATION FOR INTERNATIONAL APPLICANTS

INFORMATION FOR INTERNATIONAL APPLICANTS

IR OFFICE
The UBU Office of International Relations aims to support the mission of the university. This is to produce graduates of high quality, to encourage research that benefits the local, national, and international communities, to offer educational services regionally, and to promote the cultural traditions of Isan.

The office achieves this by facilitating communication between the university and individuals and agencies outside of Thailand. The main focus is on contacts with universities in the GMS and ASEAN.

The office also exists with institutions in other parts of Asia, United States, United Kingdom, Australia, and New Zealand.

If you want more information, please contact the Office of International Relations by email at intercoop@ubu.ac.th by phone at +66 45 353052, or by Fax at +66 45 288394.

The office’s postal address is:
Office of International Relations
Office of the President
Ubon Ratchathani University
Sathonlamark Road
Warin Chamrap
Ubon Ratchathani 34190
Thailand.
UBU ADMISSION REQUIREMENTS

UNDERGRADUATE
1. Applicant must have completed/be completing high school grade 12 or its equivalent*
* High School Equivalences
- Applicants must have completed/be completing high school grade 12 at an American system school, year 13, IGCSE, GCE ‘A’ level, ‘AS’, or IB certificate at a British system school, or its equivalent from high schools in different systems to those mentioned above.
- Applicants should also submit the equivalent certification for completing high school issued by Thai Ministry of Education.

2. Applicant must achieve a satisfactory score in standardized Thai and/or English proficiency tests.
   - Students entering Thai language programs who do not have a satisfactory score in a standardized Thai competency test must pass the Thai Language for Foreigners Courses at UBU.
   - Students entering English language programs who do not have a satisfactory score in a standardized English proficiency test, such as, TOEFL, TOEIC, IELTS, TU-GET, or CU-TEP, must take the UBU Test at Ubon Ratchathani University.

3. Applicant must not have committed an act which is attributable as a gross misconduct and not have been imprisoned by final sentence of imprisonment for a criminal offence, with the exception of sentences for offences committed negligently or minor offences.

4. Applicant must not have been dismissed from higher education institutions for a breach of discipline.

5. Applicant must also meet other requirements from the faculty. Applicant can only apply for one program in the application at Ubon Ratchathani University.

FEES AND FINANCIAL PLANNING

International students’ tuition fees per semester vary from $US 575 to $US 1,400 for undergraduate programs and $US 960 to $US 1,480 for postgraduate programs, depending on the fields of study.

SCHOLARSHIP INFORMATION

There are more than 400 scholarships per year issued by UBU and private organizations. The scholarships are to the value of between 6,000 and 30,000 baht, depending on the funding sources.

RESEARCH

UBU academics actively conduct research projects in a wide range of topics in many disciplines. The university particularly encourages research beneficial to the local community of South Isan and the GMS.

UBU research centers include UBU Science Park, Learning Organization and Development Center of Sesame for Sustainable Agro-household industry, Advanced Organic Materials and Devices Laboratory, and the Mekong Sub-region Social Research Center.

The selection of research projects and topics at UBU includes the production of Warin Warin orchids, manufacture of bioplastics from fresh gluten, use of biomass in industrial ceramics, development of teaching materials for local schools in Ubon Ratchathani Province, renewable energy technologies, and a project titled Raising Awareness and Engaging Citizens in Local Governance.
STUDENT DEVELOPMENT

- UBU student clubs cover the areas of:
  - Academics
  - Development, guidance, and hobbies
  - Sports
  - Student relations
  - Religion, arts, and culture

CAMPUS LIFE

- There is a wide range of activities in which students can become involved
- University life is a well-balanced combination of study, exercise, and friendships

ACADEMIC SUPPORT AND SERVICE CENTERS

- Office of Academic Resources
- The Greater Mekong Sub-region Resource Centre (GMSRC) is designed to support academics, researchers, and students in the study of the GMS. Its mission is to compile multi-disciplinary resources in a variety of languages spanning six GMS countries and make this collection available to researchers, educators, and students. It is the center’s hope that this collection will address problems of limited accessibility to information that has hampered Mekong studies in the past.
- Hotel and Tourism Training Center (U-Place Hotel) is a training center where future leaders of Thailand’s hospitality industry study and are coached. U-Place Hotel offers 44 spacious rooms, a restaurant, and a Grand Ballroom to meet everyone’s needs.
- Ubon Ratchathani University Publishing House
- Office of Research, Academic Services, and Arts & Culture Preservation
- UBU Hospital
- Post office
- Banks
- Transportation

YOUR BRIGHT FUTURE IS HERE
ARTS, HUMANITIES, AND SOCIAL SCIENCE

ARTS, HUMANITIES, AND SOCIAL SCIENCES CONTAINS THE FACULTY OF LAW, FACULTY OF LIBERAL ARTS, FACULTY OF MANAGEMENT SCIENCE, AND FACULTY OF POLITICAL SCIENCE.

MANAGEMENT SCIENCE COMMENCED IN 1997, FOLLOWED BY LIBERAL ARTS IN 1999. THE FACULTIES OF LAW AND POLITICAL SCIENCE WERE CREATED IN 2005 AND 2006 RESPECTIVELY.
FACULTY OF LAW

Objectives
1. To produce law graduates
2. To develop new legal knowledge
3. To apply legal knowledge to assist the general public
4. To promote religion, arts, and culture with public participation
5. To develop an efficient management system with an emphasis on good governance

Vision
Law graduates from Ubon Ratchathani University will possess outstanding knowledge, maintain high moral and ethical values, and always focus on public benefit by peaceful methods.

Research Interests
The Faculty of Law will conduct research as well as develop new legal knowledge adaptable for social and community development.

Contact Information
Tel: +66 45 353060
Fax: +66 45 353060
Email: ajarntee@hotmail.com
Website: http://www.ubu.ac.th/en/law
Address: Faculty of Law, Ubon Ratchathani University
85 Sathonlamark Road, Warin Chaimrap,
Ubon Ratchathani 34190
FACULTY OF LIBERAL ARTS

Objectives
The Faculty of Liberal Arts provides undergraduate and postgraduate students with specialized skills and knowledge in such areas as English, Tourism, and Teaching English as a Foreign Language. In equipping the student with high moral standards, social consciousness, responsibility, and creativity, the faculty endeavors to develop them into ideal citizens who will become a main force in the growth of local communities, the country, and the Mekong Region. Through their study at the faculty, the students gain an understanding of themselves and others.

Vision
The fountain of language, social, and cultural wisdom in South Isan and the Mekong Region for ASEAN

English and Communication
Degree
Bachelor of Arts (English and Communication)
Degree Abbreviation
B.A. (English and Communication)
Instruction Language
Thai and English
Eligible Students
Thai nationality or foreigner
Philosophy
The program equips students with an ability to use English for cross-cultural communication. It also aims at developing them into well-informed individuals with creativity, social consciousness, and responsibility, as well as preparing them to be a main force in the development of local, national, regional, and global communities.

Objectives
Upon completion of the program, students will be able to:
1. Understand the contents of English and communication subjects, linguistics, and literature.
2. Improve and use analytical thinking and English communication skills in academic settings, daily life situations, and careers.
3. Develop the ability to use English for cross-cultural communication to promote mutual understanding between people of different cultures at national and international levels.
4. Build their self-esteem and improve their awareness of social values, analyze social changes in the country and around the world, and present Thailand’s distinct culture to the global community.
5. Uphold high moral standards, social responsibilities, and professional ethics in their personal lives and careers.
6. Create awareness about human values, aesthetics, and creativity.

Tuition Fee
Approximately $US 575 /semester

Course outcomes and further study
Career Opportunities: English teachers and professors, scholars, interpreters, secretaries, tour guides, employees in airline and hotel businesses, postgraduate students in Thailand or abroad.
History
Degree
Bachelor of Arts (History)
Degree Abbreviation
B.A. (History)
Instruction Language
Thai and English
Eligible Students
Thai nationality or foreigner

Philosophy
The program is committed to producing well-informed undergraduate students who have a critical mind and can logically analyze human subjects living in different historical periods to reflect on their own ways of life and understand the development of Thai society at national and local Isan levels. The students will develop an understanding of cultures in the Mekong region within broader contexts of the ASEAN and global communities.

Objectives
Upon completion of the program, students will be able to:
1. Use methods for historical research as a foundation for their professional and personal lives.
2. Develop critical thinking and reasoning and problem-solving skills to analyze and provide solutions to present social conflicts rooted in the past.
3. Uphold moral and ethical standards as accepted by Thai people.
4. Use a second language for communication in the ASEAN community, analyze economic, social, and cultural data to grasp historical development and future directions in our society, and use information technology to search, analyze, and select data from a variety of sources.
5. Develop interpersonal relationships, teamwork skills, and social responsibility, adjust to the culture of an organization, understand themselves, and accept the differences and diversity of human cultures.

Tuition Fee
Approximately $US 575 /semester
Course outcomes and further study
Career Opportunities: Historians, archivists, journalists, high school teachers, university professors, diplomats, writers, literary authors, cultural managers, tour guides.

Mekong Region Languages and Cultures
Degree
Bachelor of Arts Program in Mekong Region Languages and Cultures
Degree Abbreviation
B.A. (Mekong Region Languages and Cultures)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency

Tuition Fee
Approximately $US 575 /semester

Social Development
Degree
Bachelor of Arts Program in Social Development
Degree Abbreviation
B.A. (Social Development)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency

Tuition Fee
Approximately $US 575 /semester

Tourism
Degree
Bachelor of Arts Program in Tourism
Degree Abbreviation
B.A. (Tourism)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency

Tuition Fee
Approximately $US 575 /semester

Vietnamese and Communication
Degree
Bachelor of Arts Program in Vietnamese and Communication
Degree Abbreviation
B.A. (Vietnamese and Communication)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency

Tuition Fee
Approximately $US 575 /semester
FACULTY OF MANAGEMENT SCIENCE

Objectives
1. To produce graduates with the knowledge necessary for business management
2. To produce graduates with a good command of business communication skills
3. To produce graduates with appropriate knowledge and training for government jobs, international organizations, and/or business enterprises, and private businesses
4. To produce graduates who are able to pursue their academic interests further for more advanced degrees.

Vision
The Faculty of Management Science: the center of learning in international business with social responsibility in South Isan and the Mekong Region.

Contact Information
Tel: +66 45 353804
Fax: +66 45 353806
Email: sumalee.n@ubu.ac.th, mrthitikul@gmail.com
Website: http://www.ubu.ac.th/en/bus
Address: Faculty of Management Science, Ubon Ratchathani University

International Business Management

Degree
Bachelor of Business Administration in International Business Management

Degree Abbreviation
B.B.A. (International Business Management)

Instruction Language
English

Eligible Students
Thai nationality or foreigner with English language proficiency

Philosophy
Graduates must have knowledge, skills, and ability in international business management. These characteristics include an understanding and appreciation of generally-accepted ethics and morality, and a responsibility towards the community, society, and environment. Such graduates allow the development of Thailand to effectively compete with other countries in GMS and ASEAN.

Objectives
Upon completion of the program, students will be able to:
1. Understand major concepts, principles, and theories in International Business Management
2. Analyze and understand relationships between global business and GMS local businesses
3. Possess knowledge and skills in management of international business
4. Communicate effectively, both verbally and in writing, in English and in other languages of ASEAN
5. Appropriately manage under significant factors such as culture, society, legislation, regulations, international agreements, and politics
6. Have the ability to find solutions of international business management using local resources,
7. Be morally and ethically responsible by promoting human rights, empathy, and environment preservation in their work place.

Tuition Fee
Approximately $US 1,365 semester
Approximately $US 10,920 /program

Course outcomes and further study
Career Opportunities: Prepare the student for administrative positions in international divisions of companies; careers in national or international government agencies concerned with international trade development; the establishment of international businesses; and careers in commercial and investment banking. For example, trade specialist, import/export coordinator, foreign service officer.

Further study: After completion of the BBA program, students are able to apply for admission to an MBA or master program related to international business in Thailand and abroad.
FACULTY OF POLITICAL SCIENCE

Objective
1. To produce graduate students who have abilities, morality, consciousness, and responsibility. The students can develop themselves continually for successful work and live happily based on virtue and a sufficiency philosophy.
2. To produce knowledge from research and maintain indigenous knowledge. The students can use knowledge for problem resolution for the community and region. This resolution can help people in South Isan and the Mekong region to live better communally.
3. To provide academic service and teaching for work security. The faculty promotes environmental management, problem resolution, and life improvement for the people in South Isan and the Mekong region. The service is related to learning and teaching, research, and cultural maintenance.
4. To study and maintain local culture in South Isan and the Mekong region.
5. To promote good governance for the development of the faculty as a learning center staffed by happy and highly-qualified personnel.

Vision
To be the best for learning and teaching, research, and academic service for political science and political and administrative science.

HEALTH SCIENCES

Health Sciences includes the Faculty of Nursing, the Faculty of Pharmaceutical Sciences, and the College of Medicine and Public Health.

The Faculty of Pharmaceutical Sciences started in 1993. The College of Medicine and Public Health and the Faculty of Nursing were launched in 2002 and 2010 respectively.
FACULTY OF NURSING

Objectives
1. To produce nursing graduates who meet the Qualifications Framework for Higher Education and have local consciousness and skills to live happily based on self-sufficiency.

2. Create nursing knowledge and innovations to continuously contribute to health care in the Greater Mekong Sub-region and ASEAN.

3. Provide academic service, respond to the needs of the community to improve the health of individuals and communities, and promote health care resources in the Greater Mekong Sub-region and ASEAN.

4. Preserve and restore local cultural heritage and culture of healthcare adapted to meet the lifestyles of individuals and communities in the Greater Mekong Sub-region.

5. Manage the principles of good governance to improve the Faculty of Nursing to be a learning organization with high-quality and pleasant personnel.

Vision
To be a leading Nursing teaching and learning institution in the Greater Mekong Sub-region and ASEAN, produce qualified graduates, and create knowledge and innovation for a sustainable society. Research Interests Aging society and community health nursing

Contact Information
Tel: +66 45 353277
Fax: +45 353277

FACULTY OF PHARMACEUTICAL SCIENCES

Objectives
1. To produce qualified pharmacy graduates in response to the demand for pharmacists in both public and private sectors, especially in the Isan region.
2. To conduct research in areas of pharmacy, public health, and medical science, and to disseminate useful research results to develop and solve public health problems at local and national levels.
3. To conduct research and development in pharmaceutical technology, pharmaceutical chemistry, pharma cognosy, and herbal medicines to promote self-reliance in the use of Thai pharmaceutical products.
4. To provide academic services and knowledge to people, communities, and public and private sectors.
5. To promote local and Thai arts and culture, and to conserve Thai medicinal knowledge.

Vision
To become a leading academic institution in ASEAN, provide graduates with excellent knowledge and professional skills, and produce research at an international level.

Research Interests
Research in the Faculty of Pharmaceutical Sciences, Ubon Ratchathani University is performed in four major areas:

1. Pharmaceutical Chemistry and Pharmacognosy/Natural Products: This area focuses on the extraction and investigation of pharmacological activities of natural compounds that have potential for use as medicinal or nutraceutical agents. For example:
   • Survey and collection of medicinal plants in Ubon Ratchathani province
   • Development of potential herbs from local wisdom for estrogen replacement therapy in post-menopausal women
   • Analysis of vitamins with antioxidant activities from local herbs by the use of HPLC
   • Extraction and structure elucidation of flavonoid from Leguminosae
   • Extraction and purification of isoflavone from soybeans
   • Investigation of chemical and biological properties of fermented herbs of Ubon Ratchathani province

2. Biopharmaceutical Sciences (Biotechnology, Pharmacology, Toxicology, Immunology, and Microbiology): Each year the faculty acquires new staff graduating from leading international universities who are interested in research in biotechnology. Extensive research in this area also explores biological activities of natural compounds. For example:
   • Study of genetic factors on chronic hepatitis virus C disease
   • Evaluation of CYP2C19 variant post percutaneous coronary intervention, acute coronary syndrome, patients receiving clopidogrel in Sappasitthiprasong Hospital, Ubon Ratchathani, Thailand
   • Neuroprotective and antiproliferative effects of hydroxychavicol extracted from Piper betel leaf on SK-N-SH human neuroblastoma cell line
   • Study of anticancer activities of medicinal plant oils and health product development
   • Study of antiviral properties from edible vegetables in Isan
   • Use of essential oil extracted from traditional
plants for cancer prevention and inhibition
• Study of anti-growth and apoptosis activities of local herbs in Leguminosae
• Antimicrobial study of Curcuma cf.comosa Roxb.
• Antioxidant and anti-inflammatory study of Curcuma cf.comosa Roxb.
• Detection of carbapenemase and antibiotic-resistant genes in carbapenem-resistant Acinetobacter baumannii isolated from patients in Sappasithiprasong Hospital

3. Pharmaceutical Products and Cosmetics: This area’s research investigates the development of delivery systems for natural agents, drugs, cosmetics, and antigens as well as the development of natural materials. For example;
• Development of skincare cosmetics containing soybean extract by nanotechnology
• Triphala loaded niosomes for hair growth promotion
• Study and development of medicinal plants and natural substances for hair growth promotion and hair loss prevention
• Development of health promotion tablets from medicinal plants
• Natural rubber polymer for new pharmaceutical products
• Development and evaluation of paclitaxel lipid emulsion for anticancer activity
• Development of finasteride nanoparticles for transfollicular delivery
• Development of andrographalide gel for antimicrobial property
• Extraction of kankrau for powder perfume
• Development and study of chemical stability and antimicrobial study of extracted soybeans in capsules

4. Pharmacy professional and health care: Research in this area is conducted through the pharmaceutical care service. The research pharmacy professional and health care service area includes primary care, community pharmacy, home health care, health policy, and health promotion, such as smoking cessation. For example;
• Development of prescribing decision support systems (PDSS) with electronic health records to prevent drug-related problems, support patient safety, and rational use of drugs
• The impacts of home care pharmacy service on asthmatic patients
• An investigation of insecticide usage among farmers in 3 high risk provinces in South-Eastern Thailand via Geographic Information System (GIS)
• Application of Geographic Information System (ArcGIS) for Aedes aegypti and hemorrhagic fever surveillance and control in high risk areas in Isan
• The development of a Geo-Informatics Database of farmers’ decisions in risk areas of Ubon Ratchathani Province
• GIS-based surveillance to support DHF control in Thailand from 2009 to 2011
• Characterization of statin-associated myopathy case reports in Thailand using health product vigilance center database
• Standard times and methods for the estimation of the number of personnel required for an ambulatory care clinic, HIV/AIDS unit, Warinchumphong Hospital.
• Survey of Look Alike/Sound Alike (LASA) drugs available in hospitals in Thailand
• Evaluation of computer-assisted instruction in basic knowledge and pharmacotherapy for smoking cessation

COLLEGE OF MEDICINE AND PUBLIC HEALTH

Objectives
1. To produce international standard graduates of health science familiar with morality, critical thinking, and sufficiency economy.
2. Do research and create innovations for new and creative knowledge appropriate to the Greater Mekong Sub-region context.
3. Provide academic service and co-operation with communities in the Greater Mekong Sub-region.
4. Preserve and restore art and culture of local areas and the Greater Mekong Sub-region.

Vision
To be a leading institution of teaching and learning in health sciences in the Greater Mekong Sub-region and ASEAN.

Research Interests
The College of Medicine and Public Health conducts research to solve problems in community health and improves the quality of life of people living in Isan and the Mekong region. The general approach is to integrate local wisdom with academic knowledge and technology.

By the conduct of new research, the college aims to produce quality articles in current academic journals, and to integrate new research into learning and teaching. Research has already been published in national and international journals.

Science and Technology consists of the following faculties, Agriculture, Applied Arts and Architecture, Engineering, and Science.

In 1988, Agriculture and Engineering were set up as faculties to establish Ubon Ratchathani University as a hub for agricultural industries in the southern part of North-East Thailand (South Isan). Later, the Faculty of Science was formed to present fundamental science courses and promote scientific research related to agriculture and technology. In 2000, the Faculty of Applied Arts and Design (later Architecture) was founded.
FACULTY OF AGRICULTURE

Objectives
1. To produce ethical graduates with good academic performances.
2. To conduct research that will serve the agricultural needs of people in South Isan region of Thailand.
3. To provide the local community and society with academic services and extension.

Vision
The Faculty of Agriculture at Ubon Ratchathani University aims to be a valuable source of knowledge and information in agriculture and rural development that integrates local wisdom and new technology to produce competent human resources to serve society as a whole and the rural areas of South Isan region of Thailand.

Research Interests
Over the years, faculty members have received funding from both internal and external funding agencies for various research projects. Most notable research projects are, for example, pasture improvement for dairy cattle, research and development of domestic chickens, goat milk product development, tissue culture for ‘Dang Ubon’ orchids, and native fish study in local reservoirs and rivers such as Mekong and Moon Rivers. Faculty members are actively looking for external funding to conduct research in the areas of their interest. The faculty publishes research papers, both nationally and internationally, and strives to be one of the best faculties in agricultural science and technology in the region. There are more than 20 outreach programs provided during the year through in-house training or extension work by the faculty members and staff that mainly serve people in South Isan region of Thailand. For more information about the research projects and outreach programs, please check the database of each faculty member.

Agriculture
Degree
Bachelor of Science Program in Agriculture
Degree Abbreviation
B.Sc. (Agriculture)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Philosophy
The program equips students with a professional ability in agriculture in terms of agronomy, horticulture, and animal sciences. It also aims to develop them into well-informed individuals with good ethics, leadership, and responsibility to work with others for the development of Isan local and Mekong region communities.

Objectives
Upon completion of the program, students will be able to:
1. Think, analyze, synthesize, and integrate agricultural science knowledge and other related technology, including the application knowledge in appropriate and correct ways to situations
2. Study continuously by themselves with good vision for working in organizations and self-employed business.
3. Make practical use in terms of agricultural science for self, community, and organization development and use knowledge for research and technology improvement to support national development.
4. Communicate and transfer knowledge to other groups of people such as communities and officers.
5. Create awareness about human values and ethics in their profession.

Fisheries
Degree
Bachelor of Science Program in Fisheries
Degree Abbreviation
B.Sc. (Fisheries)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Philosophy
The program focuses on the development of scientific knowledge and skills in fisheries, including the application of this knowledge to manage and develop fisheries for sustainable use.

Objectives
Upon completion of the program, students will be able to:
1. Conduct research and analysis on fisheries science and technology.
2. Develop sustainable management strategies for fisheries.
3. Communicate and transfer knowledge to other groups of people such as communities and officers.
4. Create awareness about human values and ethics in their profession.

Food Technology
Degree
Bachelor of Science Program in Food Technology
Degree Abbreviation
B.Sc. (Food Technology)
Instruction Language
Thai/English
Eligible Students
Thai nationality or foreigner
Philosophy
The program focuses on the development of scientific knowledge and skills in food technology, including the application of this knowledge to the development and production of safe and nutritious food.

Objectives
Upon completion of the program, students will be able to:
1. Conduct research and analysis on food technology.
2. Develop and produce safe and nutritious food.
3. Communicate and transfer knowledge to other groups of people such as communities and officers.
4. Create awareness about human values and ethics in their profession.

Tuition Fee
Approximately $US 660/semester
Course outcomes and further study
Career Opportunities: Lecturers, agricultural academic officers, scientists, employees in government or private offices, and agricultural business people. Further study: Higher education in agriculture and as professionals in agriculture, researchers, and related knowledge in agriculture.

Tuition Fee
Approximately $US 1,160/semester
Course outcomes and further study
Career Opportunities: Lecturers, agricultural academic officers, scientists, employees in government or private offices, and agricultural business people. Further study: Higher education in agriculture and as professionals in agriculture, researchers, and related knowledge in agriculture.

Tuition Fee
Approximately $US 720/semester
Course outcomes and further study
Career Opportunities: Lecturers, agricultural academic officers, scientists, employees in government or private offices, and agricultural business people. Further study: Higher education in agriculture and as professionals in agriculture, researchers, and related knowledge in agriculture.
FACULTY OF APPLIED ARTS AND ARCHITECTURE

Architecture
Degree
Bachelor of Architecture Program in Architecture
Degree Abbreviation
B. Arch. (Architecture)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Philosophy
The program equips students with the concept of Sustainable Creativity, especially, Isan Vernacular Architecture and Mekong River Basin Architecture.
Objectives
Upon completion of the program, students will have:
1. Awareness about human morality and professional ethics, including local knowledge and culture, to create a sustainable environment.
2. Ability based on the professional Thai and International Architecture Standard, and knowledge to provide the capability in both professional and academic practices.
3. Creative mind and capabilities in thinking, analyzing, and resolving with principles and reasons.
4. Understanding the basics of society, culture, and environment including economic factors resulting in social communication and livelihood.
5. Efficient communication skills including the ability to use current technology as a tool for professional and everyday practice.
Tuition Fee
Approximately $US 1,160 /semester
Approximately $US 9,280 USD/program
Course outcomes and further study
Career Opportunities: Architects or experts in architecture in government or private organizations; for example, project managers, project consultants, facility managers, scholars and conservation officers.
Further study: Master degrees in Architecture for students who want to be specialists in their areas of interest.

Industrial Design
Degree
Bachelor of Applied Arts Program in Industrial Design
Degree Abbreviation
B.A.A. (Industrial Design)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Tuition Fee
Approximately $US 720 /semester

Vision
Learning from local wisdom, developing into international

FACULTY OF ENGINEERING

Objectives
To produce engineering graduates who have good abilities, critical thinking, reliability, and a service-mind with 4 main competences:
1. Knowledge and reasoning,
2. Critical thinking,
3. Self-learning, and
4. Good attitude

Vision
To be the primary institution for study, research, and development of engineering in the Isan region of Thailand.

Research Interests
At the Faculty of Engineering, research is considered one of the most important missions in addition to teaching and providing services. The Research and Service Center acts as a hub of communication involving consultancy services and supervision of research. However, the main duty is the establishment of sponsored research projects and services, providing a central agency to co-ordinate the operational aspects of research and service between the faculty and other public and private agencies to create links between researchers. The center organizes technology events such as En Tech Day, well-known by young students wishing to join open house-like activities, and co-operates with the Postgraduate Office to provide research-related information to students. Contact the Research and Service Center for more details about research degrees at the faculty.

Engineering Degree
Bachelor of Engineering Program in Chemical and Biological Engineering, Electrical Engineering, Environmental Engineering, Industrial Engineering, or Mechanical Engineering

Degree Abbreviations
B.Eng. (Chemical and Biological Engineering, Electrical Engineering, Environmental Engineering, Industrial Engineering, or Mechanical Engineering)

Instruction Language
Thai and English

Eligible Students
Thai nationality or foreigner with Thai language proficiency

Tuition Fee
Approximately $US 660 /semester
FACULTY OF SCIENCE

Objectives
1. To produce graduates in the fields of Science, Mathematics, and Computer Science
2. To educate Ubon Ratchathani University students in Science, Mathematics, and basic Computer Science
3. To conduct research and promote development in the fields of Science, Mathematics, and Computer Science
4. To serve the community
5. To promote and maintain Thai culture and arts

Biology
Degree
Bachelor of Science Program in Biology
Degree Abbreviation
B.Sc. (Biology)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Tuition Fee
Approximately $US 605 /semester

Computer Science
Degree
Bachelor of Science Program in Computer Science
Degree Abbreviation
B.Sc. (Computer Science)
Instruction Language
Thai
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Tuition Fee
Approximately $US 605 /semester

Chemistry
Degree
Bachelor of Science Program in Chemistry
Degree Abbreviation
B.Sc. (Chemistry)
Instruction Language
Thai and English
Eligible Students
Thai nationality or foreigner with Thai language proficiency
Philosophy
The aim of the Bachelor of Science program in Chemistry is to produce graduates in Chemistry with a high level of knowledge, ability, and experience in Chemistry research. The program equips students with the ability to search for data for analysis and synthesis, and develops their skills for use in a sustainable and developing country. The program's graduates pursue lifelong learning to continuously improve themselves academically and in research. They have ability in Thai and international languages, are well-informed, ethical, honest individuals, and act as valuable members of society as leaders in and contributors to the community.

Objectives
Upon completion of the program, students will:
1. Be moral, self-responsible, tolerant, honest, disciplined, polite, humble, tactful, and open-minded
2. Have knowledge of Chemistry in principles and theories that can be widely applied in everyday life
3. Have self-learning skills
4. Have good leadership, co-operative, and teamwork skills
5. Have language skills to communicate competently and ability to appropriately use computers and information technology.

Tuition Fee
Approximately $US 605 /semester

Course outcomes and further study
Chemists, researchers, quality inspectors in government agencies such as educational and research institutions, or private companies and various kinds of industries such as chemical, pharmaceutical, environmental, food and/or others. Also as teachers in primary and secondary schools and higher education institutions in the public and private sector, and in self-employment.
Environmental Sanitation
Degree Bachelor of Science (Environmental Sanitation)
Degree Abbreviation B.Sc. (Environmental Sanitation)
Instructional Language Thai
Eligible Students Thai nationality
Philosophy To produce graduates who are ethical and competent in the implementation of environmental management, environmental impact assessment, and environmental pollution control to contribute to the creation of a better environment that has no negative effects on human health.
Objectives Upon completion of the program, graduates will:
1. Have good moral and ethical standards,
2. Have knowledge and understanding of the academic and professional background of environmental sanitation that may be effectively applied in the pursuit of a career,
3. Be able to apply theoretical knowledge, skills, and practical experiences in analysis and synthesis in the solution of environmental sanitation problems in accordance with social, economic, and environmental conditions,
4. Earn a living with social responsibility, ethics, and pride in the profession,
5. Live in society and adapt oneself to work with others in all occupations and at all professional levels,
6. Continually develop oneself and one's knowledge to pursue higher education in Thailand or abroad.
Tuition Fee Approximately $US 605 /semester

Course outcomes and further study
Career Opportunities: Environmental specialists in the preparation of environmental impact reports, environmental officers, sanitation officers, environmental consultants, environmental measurement officials, environmental protection control officers, laboratory and environmental measurement technicians, environmental managers, and environmental research assistants
Further study: Master degrees in Environmental Science and Environmental Engineering

Rubber and Polymer Technology
Degree Bachelor of Science Program in Rubber Science and Technology
Degree Abbreviation B.Sc. (Rubber Science and Technology)
Instruction Language Thai
Eligible Students Thai nationality or foreigner with Thai language proficiency
Tuition Fee Approximately $US 605 /semester

Information Technology
Degree Bachelor of Science Program in Information Technology
Degree Abbreviation B.Sc. (Information Technology)
Instruction Language Thai
Eligible Students Thai nationality or foreigner with Thai language proficiency
Tuition Fee Approximately $US 605 /semester

Industrial Physics
Degree Bachelor of Science Program in Industrial Physics
Degree Abbreviation B.Sc. (Industrial Physics)
Instruction Language Thai
Eligible Students Thai nationality or foreigner with Thai language proficiency
Tuition Fee Approximately $US 605 /semester

Microbiology
Degree Bachelor of Science Program in Microbiology
Degree Abbreviation B.Sc. (Microbiology)
Instruction Language Thai and English
Eligible Students Thai nationality or foreigner
Tuition Fee Approximately $US 605 /semester

Mathematics
Degree Bachelor of Science Program in Mathematics
Degree Abbreviation B.Sc. (Mathematics)
Instruction Language Thai
Eligible Students Thai nationality or foreigner with Thai language proficiency
Tuition Fee Approximately $US 605 /semester

Physics
Degree Bachelor of Science Program in Physics
Degree Abbreviation B.Sc. (Physics)
Instruction Language Thai
Eligible Students Thai nationality or foreigner with Thai language proficiency
Tuition Fee Approximately $US 605 /semester

Occupational Health and Safety
Degree Bachelor of Science Program in Occupational Health and Safety
Degree Abbreviation B.Sc. (Occupational Health and Safety)
Instruction Language Thai
Eligible Students Thai nationality or foreigner with Thai language proficiency
Tuition Fee Approximately $US 605 /semester
THE BEST UNIVERSITY IN SOUTH-ISAN REGION

7th Cycle of the King’s Birthday Convention Hall
Located on the banks of the Moon River, Ubon Ratchathani is a large, provincial capital city whose history dates back officially to 1780 when King Taksin the Great appointed the region’s first ruler and gave the city its name. The city was governed by four semi-autonomous rulers until 1882 when a governor was appointed and it became part of Siam. The city today is a thriving center for business, retail, education, transport, medicine, and entertainment, and hosts the well-known Candle Festival in July/August each year.

Located in the south of Isan, Ubon Ratchathani province is situated 629 kilometers from Bangkok and features plateaus and mountain ranges with the Moon River running through the middle. Sandstone cliffs along the Mekong River serve as a natural border between Thailand and Laos. The region where Ubon Ratchathani borders both Cambodia and Laos, and the Mekong flows into Cambodia has been called the Emerald Triangle in recognition of its magnificent green landscape. The province has outstanding national parks in Phu Chong Nayoi and Pha Taem, two of Isan’s unspoiled and almost hidden natural preserves.
If you’re thinking about visiting UBU, here’s some information to help:

• It’s easy to get to UBU – there are daily flights to Ubon Airport from Bangkok by Thai International, Thai Smile, Lion Air, AirAsia, and Nok Air. The flight takes about 50 minutes and you can get a taxi from the airport to the university. There are also trains between Bangkok and Ubon and an extensive network of bus services that link the city to the capital and other major cities.

• Let us know if you’re planning to visit – we may be able to arrange a pick-up at the airport/train station/bus station. We’d be happy to organize meetings with faculties that you may be interested in.

7. **Document check lists**

□ One copy of the completed Application Form (downloadable from the Ubon Ratchathani University website: www.ubu.ac.th/en)

□ Two 35 x 45mm, full-face photographs taken within the last 6 months.

□ Two copies of applicant’s passport.

□ Two copies of graduation certificate/diploma for Grade 12/Bachelor/Master or equivalent in English, or its foreign equivalent (if not in English, please submit the original document with an official English translation).

□ High school/ Bachelor/Master official transcript in English, or its foreign equivalent (the original document with an official English translation, 2 copies).

□ UBU health certificate in English, issued within the last 1 month. Please submit one original and one copy.

□ Two copies of certificate of standard Thai and/or English language proficiency tests. This certificate must have been issued within the last 2 years (if any).

□ A letter of recommendation from previous high school/institute (optional).
8. Permission to release information

I authorize the following person to access details regarding my application (compulsory for students under 18 years of age): Family name: .................................................................

Given name: ................................................................. Relationship to applicant: .................................................................

Delegate’s signature: ................................................................. Date: .................................................................

9. Declaration and signature

I agree:
- to Ubon Ratchathani University communicating with me via electronic means;
- to permit the university to obtain my academic results from other institutions directly;
- if any information provided by me is discovered to be untrue or misleading in any respect, I consent to these other institutions collecting, storing, and disclosing this information to Ubon Ratchathani University and any other relevant authority.

I understand that:
- submitted documents supporting this application become the property of the university and will not be returned to me;
- the university may vary or cancel any decision it makes if the information I have given is incorrect or incomplete;
- information is collected on this form and during my enrollment to ensure student compliance with the conditions of their visas and their obligations under Thai immigration laws generally. Information collected about me on this form and during my enrollment can be provided, in certain circumstances, to the Thai government and designated authorities. In other instances information collected on this form or during my enrollment can be disclosed without my consent where authorized or required by law.

I declare that the information I have given in this application is correct and complete.
