

KOREA, HERE I COME !!

Far East University, Korea

June 2013 - August 2014

My life as an exchange student in Korea

Hi guys! I am Pitchanan srithanyarat, a student from ubonratchathani university. I was an exchange student at Far East University, Korea, for two semesters and I just got back in Thailand this July. I wanted to share my experienced with you guys to convince more people should come and visit Korea and FEU, so here it is!

Pros of Student Exchange

- You make so many amazing new friends & international connections.
- You learn what it's like to live in another country and in a different culture, it's not just a holiday.
- You become more independent and more able to take care of yourself.
- You get to try lots of new foods and cultural experiences that are different from your life at home.
- You become a stronger person able to deal with

13TH SUMMER GLOBAL LEADERSHIP DEVELOPMENT PROGRAM, 2013

“After I had a chance to attend GLDP program last year and became an exchange student in FEU, I learn so much from the language and cultural experiences

- Pitchanan srithanyarat

“GLDP that changed my life”

During 2 months I attend GLDP. I met so many amazing people while I was there. I have learned new things. My English is not good but I still try to speak. Being there, I realized that the experience of going through culture shock, learning a new language and having new exciting adventure. It is important. GLDP did not gave me only How to speak English, but also taught me how to communicate with people and how to grown up to be a better person.

Study

it's not only about having fun. I actually enjoy studying here quite a lot. My main reason for coming here was to learn English and Korean language. I take a lot of English subject and intensive Korean course. I learn a lot, and studying a language is actually quite fun. Personally I think that having fun while studying is very important. If you study what you enjoy, you will undoubtedly do very well. That's why I love studying here.

there's also a large variety of academic courses that you can choose from. The only disadvantage is that the courses that not all courses are taught in English, so you have to be selective.

I should tell you that if you want to come study in FEU you should first discuss with University whether you can get credit for the courses that you are doing here. In my case I don't need any more credit. I just study because I want to learn something, not because of some piece of paper that says I did a good job. Also, my experience here gave me the time I needed to think about what I want to do in the future.

Outside of studying

When I have no class. I always went out for shopping or window shopping with friend. I love to hang out with friends in Seoul because it's only take 1.30 hours From our university to Seoul. Koreans are simply very nice and social people. Sometimes I need to go to drink with some classmates and

The university

The campus itself is located on a hill, and while it's relatively small compared to other Universities, and the dormitory is conveniently located in the University. This makes it easy to jump out of bed at the last minute and still be on time. You have to share your room with a roommate. One room per four person. I live with 2 Filipina girl, and 1 Nepali and I have to say I've learned a lot about English through them. Every Wednesday we have cleaning day. Our dorm close in 11am and room checker will check that we are in room or not from Every Monday to

I shared my experience of studying at Far East University with other international students.

I was able to discover a little of Korean culture and language through conversation, observation and some unforgettable shared experiences! I would recommend the opportunity to anyone!

Korean kids and I

I meet the world

My year abroad in Korea has been an amazing experience! It's a great opportunity to live in a different culture for a long period of time where you can really absorb little things that you would miss on a shorter trip. Far East University offers lots of options for class choice with most being delivered in English.

Just as well as my Korean was non-existent before coming out to Korea but now I can confidently order food and drinks and find my way around Seoul with relative ease! Korea is also an excellent hub for ex-
